ZenduCAM Z6

### Dual-Facing Dash Camera
to Reduce Violations & Improve Driver Safety

Z6

Cloud-connected dash cameras are revolutionizing the way organizations operate their fleets, making them sustainable, efficient and more profitable.

ZenduiT's **ZenduCAM Z6** Dash Camera is an innovative, dual-facing solution that leverages the power of AI and ADAS to detect and prevent critical incidents. It also provides real-time visibility and valuable insights into overall fleet performance, helping managers increase safety and cost savings.
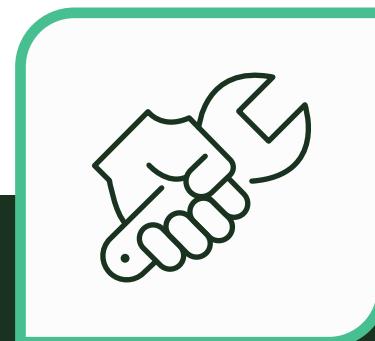

BUILT-IN AI AND ADAS
for real-time event detection

BUILT-IN SCREEN AND SPEAKER
to coach and instruct drivers

**HD RECORDING AND STREAMING**
for live playback and event upload

EASY INSTALLATION
plug-and-play dash camera - no technicians required
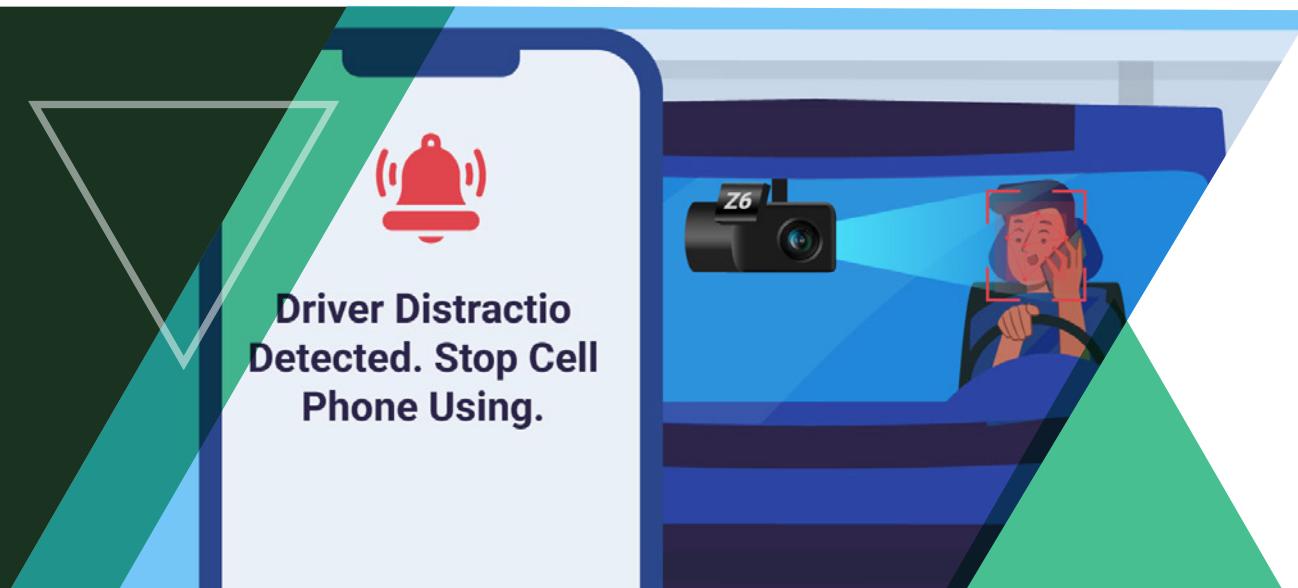

In-Depth Reporting of Critical Insights

The **Z6** has built-in GPS and G-Sensor technology that automatically records critical events, enabling fleet managers to make informed decisions about their vehicles in real-time
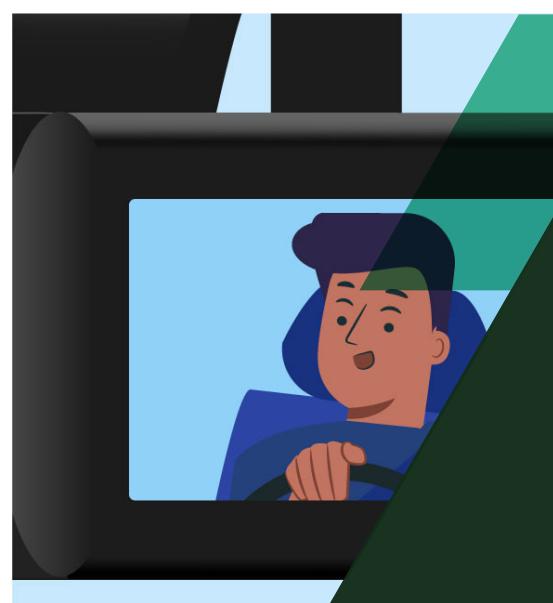

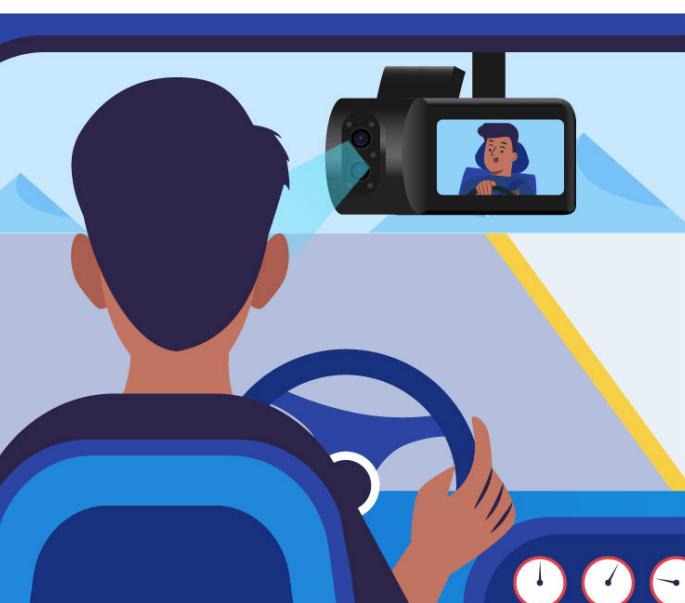

Immediate In-Cabin Coaching

The built-in screen and speaker enable real-time coaching. The built-in SOS button alerts the fleet manager while simultaneously saving the recorded video in the event of an accident

Driver Distractio Detected. Stop Cell Phone Using.

Keep Drivers Alert and Focused with Facial AI

Powered with IR and AI, the **Z6** captures and analyzes crucial driver violations day or night, including drowsy driving, texting or eating while driving, or not wearing a seatbelt

Real-Time Video & Audio Capture

The **Z6** streams and uploads HD footage of critical road and driver-facing incidents that aids managers in analyzing events, exonerating drivers or identifying and correcting risky driving behaviour

Wi-Fi support

3G/4G connectivity

Built-in Connectivity with Wi-Fi support

The dash camera has 3G/4G connectivity with Wi-Fi support that helps fleet managers monitor and track their fleet in real-time

DYNAMIC INTEGRATION

ZENDUCAM

Easily view road and driver-facing footage in real-time through the ZenduCAM secure dashboard using either the desktop or mobile application

Use the ZenduCAM rewind feature to investigate previous incidents or search for a specific event

Apply ZenduCAM predefined rules to trigger and analyze critical events

Take advantage of ZenduCAM's unlimited cloud storage to record uninterrupted events from the dash camera
