We don't just provide another fleet tracking system.

We are in the business of providing you a solution. Our fleet consultants work with you to understand your business. We help you implement solutions based on everyday pain areas and industry best practices. Of course it helps having the industry's most powerful and reliable GPS vehicle tracking system, but the real difference is made in our customer service. Let us show you the GoFleet difference.

- + Implement an equipment maintenance management program with solutions that analyze engine data against best practices
- + Know the real-time location of vehicles and deliveries with trackers that show visibility of fleets and customers
- + Integrate smart dash cameras that record not only the events leading up to an incident, but HD footage of the driver to monitor for unsafe behaviour
- + Keep incidents low by using advanced collision prevention solutions that alert drivers if they are approaching another vehicle or pedestrian
- + Reduce environmental strain and keep costs low with fuel management programs that monitor fuel utilization against industry KPIs
- + Measure, monitor and report on nearly anything with IOX expandability
