- ✓ Driver Vehicle Inspection Reporting
- ✓ Audible Driver Coaching
- ✓ 2 Way Messaging
- ✓ Forms Integration
- ✓ Custom App Add-Ins

IFTA Management

Heavy commercial vehicles operating between states are required to track all fuel expenses and distances travelled. Our software not only saves management time by removing the manual process of tracking miles by state, but it also improves accuracy.

RECEIVE UP TO A \$300 REBATE TOWARDS TELEMATICS HARDWARE

Collect a \$300 rebate towards the purchase of telematics hardware and data subscriptions; available on new truck & bus orders. Contact us for full details.

*Eligible units must be delivered to a qualifying customer to receive the rebate.

For more information on how we can help you manage and generate revenue from the new Navistar Service Program, contact an OnCommand Consultant:
